Warning!

LAHO

I refuse to tell you any more

because I"ve told you many times before.
But you keep lipping those serious lies

givin" me those little boy alibis.
Sometimes keep remembering this

here"s my love that you gonna miss - warning !

This is a warning
red alert
emergency

This is a warning
keep your love away from me.
This is a warning
now I know your every single move

This is a warning
be careful
"cause I"m watching you.

I can"t understand it any more
no more
no more

that it"s my body you want to explore.
But you keep telling me that it"s not true

and the way I feel is because of you.
So stop treating me in this way

mind my heart
"cause somrthing"s gonna break - warning !

This is a warning
red alert
emergency

This is a warning
keep your love away from me.
This is a warning
now I know your every single move

This is a warning
be careful
"cause I"m watching you.

Look out we were good friends

but you can"t mess it up again and again

this is my final warning to you.
I can"t take it no more
I son"t want it no more

come on
boy
stay away from my door.
please
stay away from me
my final warning is to you.

This is a warning
my final warning to you.
This is a warning
my final warning to you.
This is a warning
my final warning to you.
This is a warning
my final warning to you.

This is a warning
red alert
emergency

This is a warning
keep your love away from me.
This is a warning
now I know your every single move

This is a warning
be careful
"cause I"m watching you.

This is a warning
red alert
emergency

This is a warning
keep your love away from me.
This is a warning
now I know your every single move

This is a warning
be careful
"cause I"m watching you.
