# Don't Wanna Love You

## ì•´ë¸Œ

Don't wanna love you
Don't wanna touch you
Don't wanna kiss you
Don't wanna miss youDon't want your name or your number
'Cause I don't wanna give you a call
Don't wanna end up a lover
Ooh, I don't wanna know you at allBecause you've already seen my finest qualities
You mess up everything that you ever touch
Because it won't be long before you do something wrong
I won't stick around and be dogged, that's why IDon't wanna love you
Don't wanna want you
Don't want you near my heartDon't wanna kiss you
Turn around and miss you
Stop me baby, before I startDon't wanna love you
Don't wanna touch you
Don't want you near my heartDon't wanna kiss you
Turn around and miss you
Stop me baby, before I startDon't wanna be like the others
'Cause I don't wanna end up alone
Won't let you walk on me feelings
I see to you it doesn't matter that you can do me wrongYou know I heard everything 'bout your history
Only a fool would fall in love with you now
But boy, I just don't think that you'd be
Be good for me and I won't stick around and be doggedDon't wanna love you
Don't wanna want you
Don't want you near my heartDon't wanna kiss you
Turn around and miss you
Stop me baby, before I startDon't wanna love you
Don't wanna touch you
Don't want you near my heartDon't wanna kiss you
Don't wanna miss you
Stop me baby, before I startDon't wanna love you
Don't wanna touch you
Don't want you near my heartDon't wanna kiss you
Don't wanna miss you
Don't want you near my heartYou know I heard everything 'bout your history
Only a fool would fall in love with you now
Oh boy, I just don't think that you'd be
Be good for me and I won't stick around and be dogged, that's why IDon't wanna love you

Don't wanna want you
Don't want you near my heartDon't wanna kiss you
Turn around and miss you
Stop me baby, before I startDon't wanna love you
Don't want you near my heart
Don't wanna kiss you
Stop me baby, before I startDon't wanna love you
Don't wanna want you
Don't want you near my heartDon't wanna kiss you
Turn around and miss you
