Radiate

DJ John Kelley

Let's leave this urban territory
Won't settle less, our children could be
So much better off, sacrifice then loss
Just two hundred miles out east
Smothering the sun's evening glare
Dispersing the colors as I stare
The rays that will spread and spray from out
Oh in between my hands, oh in between
Radiate, radiate, radiate
Not only for
Radiate, radiate, radiate
Not only for you, not only for you
If I could be as strong as
My father was with us then
There's no reason to doubt, resentment is out
Absolutely out of the question
Smothering the sun's evening glare
Dispersing the colors as I stare
The rays that will spread and spray from out
Oh in between my hands, oh in between
Radiate, radiate, radiate
Not only for
Radiate, radiate, radiate
Not only
This life we had chosen
It's eating you up from the inside
I'm not asking, I am begging
Why don't you realize?
Say it in your own way
I know you wish we had stayed
Say it in your own way
I know you wish we had stayed
Radiate, radiate, radiate
Not only for
Radiate, radiate, radiate
Not only for you
