

# Day by Day

## Figure Four

Standing there, life going nowhere  
I can't believe this  
Wasting life, all this time  
You can't see the truth I know  
Call me ignorant, but I'm not alone  
I have faith in God and won't quit  
    il the seed is sown  
I try to be a witness day by day  
    Sometimes, it's hard  
With Christ's help I will spread the word  
    Holding back  
I look into your eyes but  
    I can't see the fire  
That you once possessed  
    That you once knew  
Pride is why you're holding back  
    Torn behind heart and mind  
    A child lost, calling out  
In this world far from home
