Cry Cry Cry

Cold Missouri Waters

Well, you?d think that I was happy
By the smile on my face
But the second
Someone speaks your name
Like a baby I cry, cry, cry all night long
Down, down, down in the bottom of the bottle, hey
You oughta be ashamed
You left a good man in a bad way
You left a good man in a bad way, yeah
Your old red Nissan truck
I guess it ain?t so rare
'Cause ever since you left me
Man, I?ve been seein? 'em every where
I called up my DJ
I made my request
I said, "Please, please don'tcha play that song
?Cause my baby?s gone and every time it comes on"

I cry, cry, cry all night long
Down, down, down in the bottom of the bottle, hey
You oughta be ashamed
You left a good man in a bad way
You left a good man in a bad way
All in love been walkin? in a daze
Thinkin? that your heart would never break
Well baby, just you wait
Like a baby you?ll cry, cry, cry all night long
Down, down, down in the bottom of the bottle, hey
You oughta be ashamed
You left a good man in a bad way
You left a good man in a bad way
You left a good man in a bad way
You left a good man in a bad way, hey
