Come With Me

The Screwdriver Eyes

I'll try to make the sunshine brighter for you
I will even play the fool if it makes you smile
I'll try to make you laugh if there's a tear in your eye
After all is said, after all is done I'll do anything for youCome with me, close your eyes
Hold my hands, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightI'll try to make the stars shine brighter for you
And I'll take you on my shoulders, hold you way up high
I'll even chase the rainbow hanging in the sky
'Cos after all is said, after all is done I'd do anything for youCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightThrough the eyes of innocence
You will find, you will see
There'll come a time it all makes sense
And you won't know but it will show inside, deep insideCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightI'll try to make the days last longer for you
From the daybreak 'til the sunset, 'til the end of time
I'll keep you safe, away from the heartache
'Cos when all is said and when all is done I'd do anything for youCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alrightCome with me, close your eyes
Hold my hand, it'll be alright
Don't be scared, don't be shy
Lift your head, it's gonna be alright
