Saints

The City Drive

How'd we end up alone?
You've got someone at home
The one you'll love till you die
So do IDon't forget me
Don't forget meIt's so easy to fall
And think of nothing at all
Staying strong is a fight
Though I tryDon't forget me
Don't forget what we could've hadStand my ground
Though I wanna stay with you tonight
I'd sit back down
If you'd come around at other timesI promise now
That I won't forget the best thing I've never hadWe could sneak underground
Speak, but don't make a sound
But I won't let her down
Down, down, downThough you get me
Like no one gets meDon't forget me
Don't forget what we could've hadStand my ground
Though I wanna stay with you tonight
I'd sit back down
If you'd come around at other timesI promise now
That I won't forget the best thing I've never had
Won't forget the best thing I've never had
Won't forget the best thing I've never hadAll I need is a holiday
From my vocation as a saint
Hearts are beating fast, we're the same
In every way
That is why I can't come back againDon't forget me
Don't forget meYou've got everything I need
You've got it but I cannot stray away
This night will always be with meStand my ground
I'd sit back downI promise now
That I won't forget the best thing I've never had
Won't forget the best thing I've never had
Won't forget the best thing I've had
