Los Angeles

Nina Nesbitt

Sitting in a taxi,
Racin' on the 405,
We just left the party,
Off dakota drive.
Now you're shouting from the left seat.
You take your hand off my thigh
and I wish I could explain,
But you say I lie.The truth is I got jealous,
she was with you and my ex,
and when you walked on over, I got a pain in my chest.
I know I wasn't sober but I meant what I said to you.
Now I dont want to break I wanna work this through,
'cause when I think about my future all I think about is you,
but we're the only reason that we ever seem to argue.Gotta keep in the moment, Keep in the now,
Gotta keep it, oh keep it, gotta keep it way deep down.
Gotta keep in the moment, im in love with you now,
Gotta keep it, oh keep it, gotta keep it way deep down.
keep it way deep down.
keep it way deep down.He was just first love, doesnt mean he's the one
Now you're running in circles, over and over.So many complications in our new relationship,
but getting back together's always gonna be a risk
now either we let go of the past or we'll be a part of it.
but part of my past have hurt me so bad,
and although im over them I am still close
to the memories I have. I hope you understand
cause im ready to bury this all in the sand.Gotta keep in the moment, Keep in the now,
Gotta keep it, oh keep it, gotta keep it way deep down.
Gotta keep in the moment, im in love with you now,
Gotta keep it, oh keep it, gotta keep it way deep down.
keep it way deep down.
keep it way deep down.
keep it, oh keep it.You're like California rain in the summer,
cause I don't wanna run for cover.
I'm soaking you into my skin,
drowning out those that have been.
gotta keep in the moment, keep in the moment now.
You're like California rain in the summer,
cause I don't wanna run for cover.
I'm soaking you into my skin,

drowning out those that have been.
gotta keep in the moment, keep in the moment now.Gotta keep in the moment, Keep in the now,
Gotta keep it, oh keep it, gotta keep it way deep down.
Gotta keep in the moment, im in love with you now,
Gotta keep it, oh keep it, gotta keep it way deep down.
keep it way deep down.
keep it way deep down.
keep it, oh keep it,
keep it way deep down.
