In America

Creed

Only in America, we're slaves to be free
Only in America, we kill the unborn to make ends meet
Only in America, sexuality is democracy
Only in America, we stamp our god, 'In God We Trust'What is right or wrong?
I don't know who to believe in
My soul sings a different song
In AmericaWhat is right or wrong?
I don't know who to believe in
My soul sings a different song
In America, in America, in AmericaChurch bells ringin', pass the plate around
The choir is singin' as their leader falls to the ground
Please Mr. Prophet man tell me which way to go
I gave my last dollar, can I still come to your showWhat is right or wrong?
I don't know who to believe in
My soul sings a different song
In AmericaWhat is right or wrong?
I don't know who to believe in
My soul sings a different song
In America, in America, in America, in AmericaI said oh, I said oh, I said oh, yeahI am right and you are wrong
I am right and you are wrong
I am right and you are wrong
No one's right an' no one's wrong
In America, in America, in America, in AmericaWhat is right or wrong?
I don't know who to believe in
My soul sings a different song
In AmericaWhat is right or wrong?
I don't know who to believe in
My soul sings a different song
In America, in America, in America
What is right for you and me? Yeah
In America
