Anything Other Than Love

Deborah Allen

I don't need this now, the timing's bad
I'm still not over the last one I had
My heart's been tellin' me
Don'tcha think enough is enoughI'm thinkin' things that can't be true
Sayin' things that I don't mean
Please let this be anything other than love
I'm awake all night tryin' to find
Some other explanation to ease my mindI even hid the phone to keep myself from callin' you up
The sudden rise of butterflies might be fun to feel later on
Right now I need anything other than love
If something lays me out let it be the fluBaby, I need you like a hole in the head
Like a knock on the door when I'm ready for bed
I'm makin' this wish on the stars up above
Make it anything baby, anything other than love
