# Tommy Johnson

## Grady

Well, it's cold outside
Feel the winds start to blow
Well, it's cold outside
Feel the winds start to blow
Well, it's cold inside
When your baby don't want you no moreYou know I can close my windows
And I can draw my blinds
I can close my windows
And I can draw my blinds
Well, I can't close my eyes
For the way you left my mindI asked her for water
And she gave me gasoline
I asked her for water
And she gave me gasoline
I asked her for water
She gave me gasolineThe one that I love
Lord, she treats me so unkind
The one that I'm loving
Lord, she treats me so unkind
You won't hurt me no more
When I leave, you know when I leave
This old world behind
