Before the Winter Comes

Amalgama

It's not gonna be warm, cannot be stopped it seems.
Things can be said, of the leaves that are red.
Falling from the trees.
Evidence lies, right before our eyes.
To the blood out what you see.
Smiling say to her, till another day.
Now we're history.

Society doesn't really care. (doesn't really care)
Same as before, it's the weather's fault.
They'll climb up on precious air.
The war hawks in power, they will devour.
Say God told them what to do.
Ones who will say, "You made it this way".
Are we gonna pull through?

TV shows, broadcasting our lives.
Same as was said. of the mammoth ahead.
The ruler of disguise.
End of the hour, two minutes to scour
Savage a plan to save us all.
Ones who will say, "You made it this way".
Take responsibility.

[chorus]
Before the winter comes, prepare for this day.
Before the winter comes, I hope you are an A.
Before the winter comes, smoke-filled breath.
Before the winter comes, ignorance leads to death.

[solo]

[chorus]

Intelligence, the victim policy.
The same as be told, of the leaders of all.
The defenders of the free.
The winter is coming, but you can't see.
Time to turn away.
The coacher is near, now it's a fear.

Time for me to say!

[chorus]
