I Wont Look Back

Dead Boys

All my boyhood friends told me I'd fail
Spend my lifetime friendless or in jail
And all the girls at the school dance
Wouldn't give me a second chanceBut I won't look backI remember all their social games
Gossip spreading talk among the lames
Friday night's lonely passions
Empty heads with no reactions
NowBut I won't look backNow I've gone and lost their scene
The only time I see them's in a dream
With all them trying to hurt me
But now they know what I can beBut I won't look back
