

# Subliminal Fascism

## Fishbone

People got problems that they can't work out  
So their sense cracks  
I read the paper and I watch the news  
It don't give me the blues It just gives me the blacks  
Starvation on the radio  
They don't play the facts  
They play the crackerjacks Subliminal fascism gettin' under your skin  
So you better wake up U.S. Well, the bad gets worse, too fucked up  
And the hate grows more each day  
So when the infected try to effect you  
Don't listen to them when they say Follow the rules and forget the bomb  
Communistical patriotic  
The plan is subtle but it's in the open  
Kingpins Nazi scheme getting under your skin So you better wake up U.S. Subliminal fascism  
Subliminal fascism  
Fascism, fascism, fascist
