Towers

Thaw

You were here for a while
You come to me to style
Try to make sense of this
By the time that I express
That I have felt hopeless
You had turned away from me

I'm in this silence
You're raising towers
I'm walking over
I'm in this, burning
For kindness searching
I'm walking over
I'm in this silence
You're raising towers
I'm walking over

You were gone days and nights
Empty spaces no light
Try to find in this
Looking at those times
So all the years you lie
So you hide away from me

I'm in this silence
You're raising towers
I'm walking over
I'm in this, burning
For kindness searching
I'm walking over
I'm in this silence
You're raising towers
I'm walking over
