Holla at Me

DJ Klassik

Niggas out there jealous 'cuz we be bailin' with Death Row
They try to playa hate but they can't fade us tho'
We be mobbin' through tha neighborhood, yeah
With that funky sound we be throwin' down
This goes out to you playa
You know, you know who you are
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
Are you confused?
You wonder how it feels to walk a mile inside tha shoes
Of a nigga who don't have a thing to loose
When me and you was homies
No one informed me it was all a scheme
You infiltrated my team and sold a niggas dreams
How could you do me like that? I took ya family in
I put some cash in ya pocket made you a man again
And now you let tha fear put your ass in a place
Complicated to escape, it's a fools fate
Without your word, you're a shell of a man
I lost respect for you nigga, we can never be friends
I know I'm runnin' through your head now
What could you do? If it was up to you, i'd be dead now
I let tha world know nigga you a coward
You could never be live, until you die
See tha mothafucken bitch in your eye
Type of nigga, that let tha evil of tha money trap me
When ya see me nigga, ya better holla at me
Can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
So I gotta be careful, can't let tha evil of tha money trap me
Ao when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay

Courious, spittin' lyrics on tha verge of furious
I'm addicted to currency, nigga that's why we're doin this
I got shot up, I surprised tha niggas tha way I got up
And then I hit the studio it's time to blow tha block up
No hesitation, this information got you contemplatin'
Heartbreakin' and eliminatin' with this conversation
Break him and let him see tha face of a mental patient
It's a celebration of my criminal elevation with the participation
I want members across tha fifty states
To keep tha nation anticipatin' until we break
Will I be great, is it my fate? to live tha life of luxury
Some niggas bought my tapes, so much jelousy it scares me
So be prepared, 'cause only tha strong survive

Life isn't fair, probably never knew tha way it feels to die
So you figure fuck with me
I give that ass a try, nigga, holla at me
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
I gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
I shoulda saw tha signs, I was blinded
Criminal minds of a young black brotha doin' time
So many brothas framed in this dirty game
It's a shame
So much pressure on my brain while she blame me
Secrets in tha dark only her and I know
Now I'm sitten' in tha state pen doin time for slow
Guess she made a bad decision that got me livin'
Just like an animal, I'm caged up in state prison
My niggas dissin' 'cause hell have no fury like a woman scorn
A cemetary full of mothafuckers got not knowin'
Picture my prophecy the cops are attacking me, on top of me
I'm runnin' from tha coppers but never let 'em stop me
'Cause I'm a soulja hell, ever since I was a little nigga
Havin' fantasies of one day getting older
Niggas is paranoid trust a no no
Love is a mystery, fuck tha po po, holla at me
So when you see me nigga, you better holla at me
You better beware where you lay
We better not find where you stay

Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
I gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
Niggas out there jealous 'cuz we be bailin' with Death Row
They try to playa hate but they can't fade us tho'
We be mobbin' through tha neighborhood, yeah
With that funky sound, we be throwin' down
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
Gotta be careful, can't let tha evil of tha money trap me
So when ya see me nigga, ya better holla at me
You better beware where you lay
We better not find where you stay
Oh, hey, oh, no, no, no
