God Knows

Cristina Vee

Baby tell me why
Why do you question?
All this love that I have for you
If you look into my eyes
And make an exception
I will show you love like no one before
Put your trust in me
Allow me to be there
Baby, give me your hand to hold
'Cause the feelings that I have are so complicated
That words cannot explain
There is only one who knows
Only God knows how much I love you
God sees my heart and that He cares about you
God knows that I'm thinking of you
And I'm longing for you
How I wish that you knew what God knows
Baby tell me what, what is the reason
One good reason you're so insecure
'Cause after all that I have done
I think you should know by now
Girl, I'm down for you
And the love I have is pure
I wanna help you understand
Just how I feel for you
You're the one that I can't let go
Because the feelings that I have are so complicated
That words cannot explain
There is only one who knows
Only God knows how much I love you
God sees my heart and that He cares about you
God knows that I'm thinking of you
And I'm longing for you
I wish that you knew what God knows
How much I love you, God sees my heart
And that he cares about you
God knows that I'm thinking of you
And I'm longing for you
How I wish that you knew what God knows

And all of my lonely days, only God knows I'm lonely
And all my sleepless nights babe, only God knows
And every time I think of you
Only God can read my mind
God knows I tried
If you understand, Heaven knows I miss you girl
Only God can see how much
'Cause every time you go away
When I say I love you girl, only God sees my heart
He sees my heart
Only God knows, how much I love you, God sees my heart
And that he cares about you
God knows that I'm thinking of you
And I'm longing for you
How I wish that you knew what God knows
How much I love you, God sees my heart
And that he cares about you
God knows that I'm thinking of you
And I'm longing for you
How I wish that you knew what God knows
La da la
I'm thinking of you
La da la, ooh baby
How I wish that you knew
