Before the Accident

Pinhead Gunpowder

Well here's to you
And your old crew
For when you used to run this town
Before the new kids came around
Before you came back
Before you went away
Before everything here changed
Here's to you
And your old crew
Before you played your cards too soon
Here's to sitting around talking
About how wild you used to be
Here's to stagnating and complaining
And to your lame washed up bar scene
Here's to you before growing up to soon
Before the accident (whaaa!!)
Here's to being bitter, here's to regret
Here's to the old days, drink to forget
Here's to you ditching your used-to-be's
And coming back out on the town with me
Here's to you before growing up to soon
Before the accident
