Haunted heart

Johnny Lion

If you wanna see me
I'm easy to be found
Just look for the darkest cloud
And the lightning crashing down
Try to come by midnight
That's when the madness starts
Help me chase the ghosts away
From my haunted heart
Chorus:
Free my haunted heart
Take this haunted unwanted heart
Ever since you left me
Your spirit has remained

Your voice echoes on the walls
And trees whisper your name
The wind hits my skin
And it feels like your touch
Oh, come back and rescue me
From this painful love
Chorus:
Free my haunted heart
Take this lonely unwanted heart
Free my haunted heart
Take this lonely unwanted heart
