Whenever

Jody Watley

Life can be a challenge
At times it's so overwhelming
Everybody needs someone to love, someone to care
Everybody needs someone to love, someone to care
Baby that's youWhenever I'm with you, it's alright
Whenever I'm with you, feels goodYou have an incredible way, Baby
'Cause you always know what to sayThrough the times good and bad
Through the times happy or sad
You were there
You were there
Through the times good and bad
Through the times happy or sad
Lifting me up, BabyWhenever I'm with you, it's alright being with you
Whenever I'm with you, it feels good, yeah
Whenever I'm with you, you shine a light
Whenever I'm with you, feels goodEverybody needs someone to love, someone to careEverybody needs someone to love, someone to careEverybody needs someone to love, someone to careEverybody needs someone to love, someone to careWhenever I'm with you, you shine a light
Whenever I'm with you, feels good
Whenever I'm with you, through the times good and bad
Through the times happy or sad
Whenever I'm with you
