Place Your Love

Roxette

Sunday sick o' my tears
Monday mornin' I could've felt much better
Tuesday you're in my way
I wish you would type my heart a letter
Place your love in my world
It's for you, it's made for you
I need time, a lot of time
To get you off my mind
To get you off my mind
Wednesday nothin's okay
Thursday afternoon I wish I was sleepin'
Friday and Saturday sun
Gettin' up early but I can't get nothin' done
Place your love in my world
It's for you, it's all made for you
I need time, a lot of time
(I need time)
To get you off my mind
To get you off my mind, yeah
Maybe you'll come here, maybe you'll disappear
Maybe the clouds I fear will turn to flowers in the air
These cool vibrations they're hitting me all the time
You've got me diggin' and divin' in the garden of my mind
(Of my mind)
Friday and Saturday sun
Place your love in my world
(Place your love)
It's for you, it's all made for you
I need time, a lot of time
(I need time)
To get you off my mind
It's a high to watch you fly
(It's a high)
Across the sky all the time
To watch you all the time
