Happiness For Dogs

Millencolin

I think I'd been wrong in this family affair
Now, it's been too long, we got used to everything unfair
I'm out there tryin' to put on the charms
But inside I'm cryin' when I remember how you cut your arms
Here comes happiness for dogs like us
And I just hope it's gonna last
The drugs they give you are something I don't trust
At least when side effects come fast just like in the past
Everyone's not stable, we all got ups and downs
They gave you a label and pills to make you drowse
I do not trust them 'cause I've seen you fall
What's to discuss when you almost lost the will to live at all?
Here comes happiness for dogs like us
And I just hope it's gonna last
The drugs they give you are something I don't trust
At least when side effects come fast just like in the past
When side effects came fast, happiness, it never lasts
Almost twenty years of fightin' for your health, not too excitin'
And I know there's so much more that I could do
But you just never give up, hope that one day you will live up
And regain what belongs to nobody else but you
Here comes happiness for dogs like us
And I just hope it's gonna last
The drugs they give you are something I don't trust
At least when side effects come fast just like in the past
You know it never lasts, just like in the past
We found out, happiness it never lasts
You know it never lasts, I found out
