Shoot to Kill

Dekoy

Change your mind, your gonna spend some time
I'm in and more, baby you were transformed
I never bought that it would last that long
You needed wings, a magnet for better things
I cant afford, got your hand on the door
Has trigger happy has you've ever been before
I should not ask, cause I don't wanna care
All you ever bring is trouble everywhere
Cause You shoot shoot shoot to kill
Sometimes I think you do it for the thrill
When are you gonna understand
You don't have to hurt me just because you can
Don't shoot shoot shoot to kill
Just be there for me baby when you say you will
Stay or go, something about you, you know
I get paralyzed on the in and outside
Giving the chance siting up wont fly
You see ways, under my skin these days
I can't pretend I got you outta my head
I can see you happy, that your ready again
I should not ask, cause I don't wanna care
All you ever bring is trouble everywhere
Cause You shoot shoot shoot to kill

Sometimes I think you do it for the thrill
When are you gonna understand
You don't have to hurt me just because you can
Don't shoot shoot shoot to kill
Just be there for me baby when you say you will
Wont you come to me unarmed
Wont you leave me words unharmed
After all we've been through
Can coming back to you
You coming back to you
Sometimes I think you do it for the thrill
When are you gonna understand
You don't have to hurt me just because you can
Don't shoot shoot shoot to kill
Just be there for me baby when you say you will

I should not ask, cause I don't wanna care
All you ever bring is trouble everywhere
Cause You shoot shoot shoot to kill
Sometimes I think you do it for the thrill
When are you gonna understand
You don't have to hurt me just because you can
Don't shoot shoot shoot to kill
Just be there for me baby when you say you will
