Electric

G&D

What do you feel when you look into my eyes baby
Does it come to you as a surprise?
I don't care what
Other people say
Just as long as I'm here with you
Won't you come closer?
'Cause I can't seem to find
A way to go now
Electric, when we're together
So electric, feelin' like this
All the times we stayed up
All through the night
Laughing and dancing 'til the sun come out
Then later, when we're lying together
Even our stomachs
They're speaking to each other
I kiss the ground, I run my fingers through the earth
Yes, it feels so good to be alive
Electric, when we're together
So electric, feelin' like this
Kiss the ground
(Plant the seed deep)
Run my fingers through the earth
(Within the heart)
Yes, it feels so good to be alive
(Like a child our love grows bigger everyday)
Kiss the ground
Run my fingers through the earth
Yes, it feels so good to be alive
Electric, when we're together
So electric, feelin' like this
Electric, when we're together
So electric, feelin' like this
