Party Foul

Danger Radio

Sh'e staring at me
I've got a terrible disease
Taking a chance to make it
Don't look, just keep cool 'cause
I saw you standing over there
You charismatic little dare
And keep me company 'cause
I know she's watching me
But I don't think I'll take it

Shamelessly she walks to me
And says to me and begs to me
Carelessly so drawn to me
So I say this time we're gonna get it right
This time we're gonna dance all night

It's lookin' like
There might be something here tonight
But we keep it secret as we fall into pieces
Baby you try so hard to get in touch with
Keep staring and you can't function (keep lookin' around, lookin' around)
Just let the music take control
Don't fight these feelings
We both know you're not that type
We're at the club let's have some fun
And if it ended in her one
Well another day will come

Shamelessly she walks to me
And says to me and begs to me
Carelessly so drawn to me
So I say this time we're gonnage tit right
This time we're gonna dance all night
Shamelessly she walks to me
And says to me and begs to me
Carelessly so drawn to me
So I say this time we're gonna get it right
This time we're gonna dance all night

(Shamelessly she walks to me)

(Shamelessly she walks to me)
(Shamelessly she walks to me)

Don't you know that we are the ones who keep this party going
Around until the morning
Don't look back it's alright
This is not a test
We are only getting started
Dancing around until the morning
Where's the party tonight
Tonight
