If I Could

Dru Hill

I can't believe, you were the girl
No one ever wanted to be with kiss, hold or do a thang
Real thin so shy really not my type, no
There was no future for us girl honestly
It's been a while I ask myself how could this be
This girl is hot, she's looking so damn good to me
Tried to approach her, but her feelings they have changed
She's not checkin' for me
Hey there love, you're lookin' better than you did before
Ooh, I never meant to hurt you, no
Sometimes I sit and wish I didn't ignore ya
Ooh I'd change it if I could
What do I do for you to even notice me
See me tryin' hard to win your heart
Did I hurt you all that bad?
It's been two years and you're still mad, shawty tell me
Never did I feel this way before
So many dimes I've been through
Never thought that cupid had a bow for me
Till the day you passed my mama's door

I really didn't mean to hurt you baby
So won't you please come back?
Hey there love, you're lookin' better than you did before
Ooh I never meant to hurt you, no
Sometimes I sit and wish I didn't ignore ya
Ooh I'd change it if I could
You got me in a state of disbelief
I didn't know you were working with something
Saw your boy been frontin', no
You're lookin' better than you did before
Sometimes I sit and wish I didn't ignore ya
Hey there love, you're lookin' better than you did before
Ooh I never meant to hurt you, no
Sometimes I sit and wish I didn't ignore ya
Ooh I'd change it if I could
Hey there love, you're lookin' better than you did before
Ooh I never meant to hurt you, no
Sometimes I sit and wish I didn't ignore ya

Ooh I'd change it if I could
