Orange

Revolution Smile

Sew my head against the wall
With my mouth open
But in my head I see red
When you lay openSew my head against the wall
With my mouth open
But in my head I see red
When you lay open'Cos if I'm going down
I'm gonna take you with me
Some day I will make you see
The way you treated meAnd I gave myself away
I want you to cry for meI'm glowing red
Pacify instead of killing
But in my head I see red
When you lay openAnd I gave myself away
I want you to cry for me
It's hard to talk
With a gun in your mouthHow dies it feel to be fucked overSew my head against the wall
With my mouth open
But in my head I see red
When you lay openSome day I will make you see
The way you treated me
So I can be like you
So I can be like you
So I can be like youSo I can be like you
So I can be like you
So I can be like you
I don't want to be like you, yeah
