Operator

Midnight Star

Operate that body, operate on me
Operate that body, take control of me
Operate that body, operate on me
Take control of my body, take control of meI call my baby up on the telephone
I got connected to a freaky zone
The conversation was strictly void
Said if you don't join the party, go homeThe operator said, this was no mistake
I been connecting every move you make
I hope you're ready to think right
I'm gonna operate my love tonightOperator, this is an emergency
Operator, baby, burning up on me
Operator, this is an emergency
OperatorOperate that body, operate on me
Operate that body, take control of me
Operate that body, operate on me
Take control of that body, take control of mePerson to person is how it's got to be
Just one on one, baby, you and me
Computer freaking all night long
And you can bet that all my circuits are strongJust call me up whenever you find the time
We'll get together on the party line
Let's take our time and do it right
We're gonna operate our love tonightOperator, this is an emergency
Operator, baby burning up on me
Operator, this is an emergency
OperatorCall me up any time, any time
I'm all in the mix because it's
Party time, I'm gonna take my time
Gonna do it right, do it right
I'm gonna operate your love tonightOperator, this is an emergency
Operator, baby, burning up on me
Operator, this is an emergency
Operator, operator"Operator, can I help you?"
"Yes, I'm trying to, uh, reach my baby
And I dialed six one six"
"Hey, sir, could you speak up
A little louder because
I can just barely hear you"Operator was busy at the time
She told me, Hold, please, on the telephone line
I told her, Hurry up, cause I aint got much time

Its an emergency, I spent my last dime
I need a, I need a, I need a"Operator, this is an emergency
Operator, baby, burning up on me
Operator, this is an emergency
OperatorOperator, this is an emergency
Operator, baby, burning up on me
Operator, this is an emergency
Operator
