

Star Baby (Kai Lavatai Pop Craze Mix)

Marcy Playground

Say what you will
You're my star, baby When you coming down
When you coming down
Come on down When you coming down
When you coming down
Come on down Star gazer
Dream maker, I'm in love with you
I spin the bottle
And every time it's landing right on you So say what you will
Inside baby When you coming down
When you coming down
Come on down When you coming down
When you coming down
Come on down I've been waiting
Waiting patiently every night
Just to see you
Just to see your perfect shining light My heart is like a photograph, album
Of all the good times and bad and I've had some
Where I miss this girl and I miss that girl
I don't miss that girl but sometimes I miss this girl
But you, you're my star baby, you're my star baby And when you coming down
When you coming down
Come on down When you coming down
When you coming down
Come on down When you coming down
When you coming down
Come on down
