Hey Lady

Tonio K.

[Mike Posner]Hey lady
If you've been looking for love in all the wrong places
Me too
Hey lady
If you've been telling yourself just to be patient
Me too
Just because I stand on the stage now
Just because I'm ill in the booth
Doesn't mean that I can't really love you
If you listen then I'll tell you the truth
I'm getting kinda tired of
Well, I spare you the details
But I got a little crazy with the females
The last whore, okay
And the one before but I'm tryna tell you
I don't think I want that no more, I guess
At least you know that I've got the experience
So when you're cool with it
You know I know what to do with it
Everything that you'd expected and more
Sex in the shower, on the bed, then sex on the floor
Rug burns on my knees, scratches on my back
You put those on my body to remind me to come back (hehehe)
And for some reasons I do
I even eat it but thats just a secrets between me and you
Hey lady
If you've been looking for love in all the wrong places
Me too
Hey lady
If you've been telling yourself just to be patient
Me too
[Twista]Twista...Let's take it back to the basics

Looking for love in all the wrong places
All up in the party sippin' on ciroc
Was coming after women when I was
Spending big faces
Every night I'm in the zone
Doing what the fuck I wanna' do

In the hotel lobby like you and you and you
Until I met you
Make Twist, get the urge
Got it with you because I was sick with the words
Looking at you cause the picture was per-fect
Now the other chicks kicked to the curb
Sip cause I gotta' trip off the way
I was looking everywhere for love and I found it right here
I'm Twista, lemme' get to know ya
Here is Mike Posner lemme' make it quite clear
You the only one that I wanna' be with
Tell everybody else that they can holla back
But all the other woman I was with I just splurged
But she the only one that bring the dollar back
Her sex so cold, got it froze
And its on a real, she the one I chose
Lovin her so all I wanna' say is M Pose
Tell her how you feel
[Mike Posner]Hey lady
If you've been looking for love in all the wrong places
Me too
Hey lady
If you've been telling yourself just to be patient
Me too
Hey lady
If you've been looking for love, looking looking for love
Me too
If you've been telling yourself just to be patient
Me too
