Completely

Collin Raye

Before you I was totally lost
And so hopelessly, sure I'd end up by myself
I was so unaware, there was someone out there for me
Who'd love me like nobody elseThen you gave me something that I always wanted
Now I'm giving it all back to youDarlin' completely with all of my soul
I was so empty till you made me whole
Girl, you complete me more every day
I promise forever to love you this way
Right from the start girl I'll give you my heart
Darlin' completelyI did time as a single man, year after year
And then right when I almost gave up
Way up high on a ledge leaning over the edge
I was mercifully saved by your loveIt might take a lifetime
But I know that I'll find the right words
To tell you I'm yoursDarlin' completely with all of my soul
I was so empty till you made me whole
Girl you complete me more every day
I promise forever to love you this way
And right from the start girl I'll give you my heart
Darlin' completelyRight from the start girl I'll give you my heart
Darlin' completely, oh, girl completely
