The Great Escape

Whatever It Takes

[Verse]
time is now
stop asking how
and living in past momentsa great escape
missed opportunity
to break new ground[Chorus]
RISE...
to your feet[Verse]
so you've made it out ok
picture perfect scenes
with bitter endingscause while you sleep
and think "its safe to be me"
there is danger[Bridge]
you cant stop me from crumbling
underneath the weight
you cant stop me from crumbling
pressure that I cant takeyou cant and wont stop me
