This Year (If We Fall In Love)

Test Your Reflex

And if we fall in love
Can you promise to keep your eyes shut
And we can see what we wanna see
It doesn't mean that much to me
And if we settle down,
And make a home in some new town
Will my, busy head begin to clear and
The loneliness just disappear
If so, I hope we fall in love this yearAnd if we fall in love
Can you promise to turn the lights off
And we can both fall asleep
There's nowhere else I'd rather be
And if you take my name
Does everything begin to change
Will you still enjoy the little things
You know it means so much to meDon't be afraid if there's something that you wanna say
Please make it clear
Cause I really want to fall in love this yearFall in love this year
To fall in love this yearAnd if we fall in love,
Can you promise to turn the lights off
And we can both fall asleep
There's nowhere else I'd rather be
And if you take my name
Does everything begin to change
Will my busy head begin to clear
And the loneliness just disappear
If so I hope we fall in love this yearFall in love this year
I really hope we fall in love this yearOh, to fall in love this year [x4]
