This Time

The ABBA Tribute Band Janus

I never thought that I could miss
The touch of your hand or just one kiss
I never meant to say,"It's over"
I was a fool to hurt you so
I had it all and didn't know
But I still believe, we can be in love again
This time I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time, I'll find the words to say
To make it better, let's stay together this time
I kept my emotions locked inside
Only to watch love pass me by
But I've had time to think it over
My lonely heart has seen the light
So give me the chance to make it right
And I pray, I'll see the day when you return
This time I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time, I'll find the words to say
To make it better, let's stay together this time
Please don't say, goodbye
(Hurting deep inside)
We can keep our dream alive if we try
(Baby, this time)
Oh baby, this time
This time, I'm gonna find a way
To hold on to the love that I thought we'd lost forever
This time, I'll find the words to say
To make it better, let's stay together this time
This time, I'm gonna find a way
(I'm holding on, holding on, yeah)
To hold on to the love that I thought we'd lost forever
This time, I'll find the words to say
To make it better, let's stay together this time
