Goodbye Baby (baby Goodbye)

Van Morrison

Goodbye baby, so long girl
I know you ain't gonna like it
But I'm stepping right
Out in your world
But I'm coming to your party
And I won't be able to stay
But I'm gonna kiss you
One more time then I'm going away
Goodbye baby, hmm
Baby goodbye
You made lonely
Yeah, you made me hurt
Just like a fool I gave you candy
And you fed me dirt
But I'm coming to your party
And just before the break of day
I'm gonna touch you
One more time then I'm going away
Goodbye baby, goodbye
Baby goodbye, hmm
I see that train a-coming, down the long lonely track
Girl, you know I gotta go on home now
But deep down in your heart
You know that I'm coming back
And I'm gonna look for you at your party
'Cause all the time I know I'll find you there
And I'm gonna dance with you
One more time, oh yeah
Goodbye baby
Baby goodbye
(Sing it to me one more time)
Goodbye baby
(See you around sometime)
Baby goodbye
