Ain't It Always That Way

Vince Gill

I took a chance, I took a fall
Waited on love 'til I could give it my all
Then I let my heart flyTook a rose to her door
Stood there like a statue just sort of frozen by her presence
But I shiedAin't it always that way
When you want to believe
Ain't it always that way
When you want and you need
Ain't it always that way
When you want to rely
Ain't it always that way
When you want and you need and you cryYes and then I took a space out of time
I don't wanna sound like a thief but the moment was mine
And I stole it, it felt rightI took a chance, took a fall
Waited on love until' I could give it my all
Then I let my heart flyAin't it always that way
When you want to believe
Ain't it always that way
When you want and you need
Ain't it always that way
When you want to rely
Ain't it always that way
When you want and you need and you cryAin't it always that way
When you want to believe
Ain't it always that way
When you want and you need and you cry
