

# I Won't (Encore) [Live]

Keri Noble

We need to talk despite the hour  
'Cause just like time this comes too late  
You've been telling me I need to change  
Or else you'll go away  
I've been searchin' every inch of me  
To find within myself  
A way to give you what you want  
And not become somebody else You just want my passion  
But you don't want my pain  
You don't even really care  
Bout what's inside my brain  
You think I don't know  
What's goin' on behind my back  
But you seem to underestimate  
This very simple fact I won't let you hurt me  
I won't beg you to stay  
I won't lay down and shut my mouth  
So you can brag the next day  
I won't be a trophy  
I won't look the other way  
So I guess you got your wish  
Cause babe I promise  
Things are gonna change The things that brought you to me  
Now are the very things you hate  
It's becoming very clear to me  
That you're the one that's changed  
I used to think that we could make it last  
I would love you all my life  
But when you tell me I'm not good enough  
You know it's just not right
