Underwater

Porches

Sometimes I see the vision
Sometimes you know I don't
Oh how I wish it would show me
Only the things that I want
Hi there Franklin underwater (x2)
I get desiring contact
The year was heavy and cool
Everything so delicate
As I watched you walk into the room
Hi there Franklin underwater (x2)
I really want to make it so right
For us to belong to the night
Just falling apart
I lit one up and I drove around
Just wondering what you're doing now
We could fall apart
