The Flow

Vargo

Woke up this morning to the sound of blue bird singing
Sweet song to the wing,
Suddenly I knew just where to begin
Something so simple, how can it speak so loud to me?
How can it be, feeling it in my heart
Right now is the right time
Right time, right time
Right now is the right time
Right time, right time
Right now is the right time
So what you gonna do when you get there
When you?re face to face with destiny
What you gonna do when you?ll jump in this flow
Jump in the blow, jump in the flow, jump in the flow
Woke up this morning to a sound of this new beginning
Sweet song to the wing,
Suddenly I knew just where to begin
Like grandma used to always say
Love do under the sun, it?s all in the way you see it
Can?t do what you say you can do
Girl stay true, stay true, stay true

Jump in the blow, jump in the flow, jump in the flow
So what you gonna do when you get there
When you?re face to face with destiny
What you gonna do when you?ll jump in this flow
Jump in the blow, jump in the flow, jump in the flow
Jump in the blow, jump in the flow, jump in the flow
Woke up this morning to the sound of blue bird singing
Suddenly I knew just where to begin
Something so simple, how can it speak so loud to me?
How can it be,
Right now is the right time
Right now is the right time
Right time, right time
So what you gonna do when you get there
When you?re face to face with
what you gonna do when you
flow, flow, flow...

Like grandma used to always say
Love do under the sun
