Straight onto the beating path
Phase down into its aftermath
Kills me to find myself here at last
I blame it on my human side
I blame it on the other guy
I blame the stars on the boulevard
A perfect body, a perfect smile
The perfect lover impeccably in style
I used to be, I?d laugh it off
Now it?s just this joke I got
A halo promise in a sinner?s dream
The punch line is I always swim upstream
I blame it on my human side
I blame it on the other guy
I used to be, I?d laugh it off
Now it?s just this joke I got
A halo promises a sinner?s dream
The punch line is I always swim upstream, upstream
I used to be, I?d laugh it off
Now it?s just this joke I got
A halo promises a sinner?s dream
The punch line is I always swim upstream, upstream
