Watching and Waiting

Didi Benami

(Ahhhhhh Ahh's)
We were quiet in the car just listening to the rain
From the lines on your face
I knew it wouldn't be the same
Just a bump along road
Nothing to be ashamed
The silence of my heart was
Driving you awayYou were just in time, You were just like light
You were mine but it's just not rightWatching and waiting
For something to change me
Is leaving you hanging and only taking all your time
The hard thing is learning from
The pain and the hurting cause
Watching and waiting
I know you're gonna find your way(Ahhhhhh Ahh's)
It's been too long
The glass is cold
You're all I know and tears explode
Been a long time coming
The wind starts blowing
It's taking me awayWe were in lost time, You were just like light
I'm on your side, but it can't feel right
on your side, but it can't feel right, On your sideCHORUS(Find your wayyyy)BRIDGE
Listen carefully build a wall from me
So I can't see you don't wanna hurt you
Don't wait patiently, that won't do a thingCHORUS
Ahhhhh Ah's Find your way
Your way
Your way
(Ahhhhh's)
