Permission

J*Davey

step right up , up
step right up
pay ur fare (4x)ur the spit fire
right tight walker
law maker
over talker
undertaker of the whole damn movement
like every single thing
every single one
fits into a tiny loaded gun
u've come to make an improvement
like everything u want
everything u say
everything u think inside ur lazy brain supposed to appease me
u seem to think u know
just how it should go for every single so & so
but nothing u can do will be easycuz i'm not a game
ur willing to play
u are what u say
so come & tell me while i'm walking away
& if u think u can choose
for me i refuse
ur outta ur mind
to think i'll ever let u come & decide cuz ii don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should cut it out
i don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should bring it downstep right up , up
step right up
pay ur fareur the strange bedfellow
no mellow bone about ya
wanna doubt ya but u seem to keep ur plan in motion
the regulator
slick tongue debater
wanna hate ya when u throw it on the paper
like a major explosioncuz i'm not impressed

u settle for less
ur under my dress
trying to tell me how to handle the stress
& if u think u can choose
for me i refuse
ur losing ur mind
to think i'd ever let u come & decide cuz ii don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should cut it out
i don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should bring it downstep right up , up
step right up
pay ur fare
step right up , up
step right up , up , upwho do u wanna be ?
what can u do for me ?
the better side of things
doesn't fit in ur regime
& if u think u got me hanging by ur string
take a good look around
i got u all figured out now
this is a new day
i got a better way
my head is in the clouds
or so u like to say
ball breaker
lion tamer
run for ur life
or keep on losing ur mind
i'll never let u decide cuz ii don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should cut it out
i don't wanna ask for ur permission baby
i know what ur all about
i don't wanna ask for ur permission baby
maybe u should bring it downstep right up , up
step right up
pay ur fare
