Powerhouse

Drivin' N' Cryin'

Stay down a pouch and look up to the sky
I'm gonna reach up to the night for Madonna for the light
I'm gonna bring it downtown to show you how to go
I said, "Now you're really jamin' when your band starts to flow"At the powerhouse
You'll see me coming around at the powerhouse
You'll hear me coming aroundA little boy standing close to God you know
He never knew the Lord until he found a power code
Well the neighbors called the cops
They tried to shut it down but the couldn't get me in the doorOf the powerhouse
They tried to shut it down at the powerhouse
And now we're on the run, and now we're on the run
You'll see me coming aroundI'm in the eleventh door up on the right
Well I've got a rub off gun and a plastic knife to go
I'm gonna see you coming
Jump down turn around jamin' in another townAt the powerhouse
You'll see me coming around at the powerhouse
You'll see me coming around, you'll hear me coming around
You'll see me coming around
You'll see me coming around at the powerhousePowerhouse
Power fuckin' house
