Mission Responsible

Michael Tolcher

[Verse 1]
Be a part of an institution
Lead the way in a revoloution
Wear a wig and a permanent smile
Be a part of a celebration
Make the plans or the cancelleation
Quick descisions
Let's change our minds[Hook]
Well, there's people out there
But, it's people we are
We're just faces from different places
Drinkin juice from mason jarsI'm on a mission responsible
Say your good-byes[Verse 2]
Be a father of no realation
Or be a symbol for procreation
Strike a match and theres sure to be fire
Be a part of your situation
Blame yourself for your frustration
Dig a hole till you lose your desire[Hook]
Well, there's people out there
But it's people we are
We're just names playing different games
Drinking coke and eating candy barsI'm on a mission responsible
Say your good-byesWell, i'm finding anything's possible
Closing your eyes
Closing your eyes
Closing your eyesBe a part of your own descision
See your future with tunnel vision
Take a chance if you want to survive
You do want to survive, don't you?
Be the talk of a conversation
Your a superstar out of isolation
Get the keys
It's your turn to drive[Hook]
Well, there's people out there
And it's people we are
We're just voices with different choices
Smokin dope and rockin' out on guitarsI'm on a mission responsible
Say your good-byesWell, i'm finding anything's possible

Closing your eyes[
[Outro]
I'm on a mission responsible
Say your good-byes
I'm on a mission responsible
Say your good-byes
