pornophonique

A few minutes ago
Scientists picked up a signal from outer space,
It appears to be an alien song.Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.U F O come let's goYou are an alien,
With super high intelligence,
Flying in a spaceship round and round.I am an alien
With super high intelligence,
Flying in my spaceship up and down.Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.U F O come let's go,You are an alien,
Coming from the universe,
Trying to seduce every single man.We come from a galaxy,
Where we don't like humanity,
You cannot escape, our masterplan.Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.Space invaders

In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.You fly away,
Into hyperspace,
Back again to your alien girlfriend,
Won't you stay,
For another day,
You and I,
Together we can fly (WE CAN FLY)Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.Space invaders
In the air,
In a flying saucer,
You can take me there,
Space invaders
In the air,
In a flying saucer,
You can take me there.Come let's go.
