Down Down

Thief

Down, down baby
Down to the place that I long to be
Down, down baby
It's there and it will be forever

Lose the fear, drop the time
Then get near
All in style

Down, down save me
I'll get exactly what i will need
Don't keep me waiting
I know I will need it forever

Lose the fear, drop the time
Then get near
All in style

It is too late to cry
