Wunderbar

Kathryn Grayson, Howard Keel

Stumbling, falling, crawling
trying to reach for you
first time I missed you
made a turn and lost my shoe
oh my dear street light
you keep me warm at nightmy wonder wonder wonder wonder shining star
wunderbar wonder shining starHave you ever asked me
where I am coming from
have I ever told you
why I am so alone
oh my compassionate light
talk to me when I am tightmy wonder wonder wonder wonder shining star
wunderbar wonder shining starRemember our first aquitance
at your iron post
sat in my car when
all at once my life got lost
I keep a firm hold on you
until the morning bluemy wonder wonder wonder wonder shining star
wunderbar wonder shining starGlittering snowflakes
under your golden glow
wrap myself up well
in my woolen coat
I am lying at your feet
sweet guardian over my sleepmy wonder wonder wonder wonder shining star
wunderbar wonder shining star
