Bitten

Dust For Life

Now in your confusion
Out from blank eyes you stare, yeah
Now in your confession
Numbs me so I don't care, yeahIn the blood we drown
So beautiful are the scars where it cuts through
Beautiful are the faces you can see through
Beautiful are the holes I fell into
Where you got bittenNow in your condition
You crawl out from nowhere, yeah
Now so close a martyr
Self-made crown of thorns you wear, yeahIn the blood we drown
So beautiful are the scars where it cuts through
Beautiful are the faces you can see through
Beautiful are the holes I fell into
Where you got bitten, yeahOnward see what you came for
A traveler for evermore
Voices whisper the story
Sadness walks to satoriBreak the bread, drink the wine
Crawl the womb, climb the tide
Tell the lie and ask the why
You got bittenIn the blood we drown
So beautiful are the scars where it cuts through
Beautiful are the faces you can see through
Beautiful are the holes I fell into
Where you got bitten, yeah yeah
