

Invisible

[Taylor Swift](#)

She can't see the way your eyes will light up when you smile
She'll never notice how you stop and stare whenever she walks by
And you can't see me wanting you the way you want her
But you are everything to me And I just want to show you, she don't even know you
She's never gonna love you like I want to
And you just see right through me but if you only knew me
We could be a beautiful, miracle, unbelievable
Instead of just invisible, yeah There's a fire inside of you that can't help but shine through
But she's never gonna see the light, no matter what you do
And all I think about is how to make you think of me
And everything that we could be And I just want show you, she don't even know you
She's never gonna love you like I want to
And you just see right through me but if you only knew me
We could be a beautiful miracle, unbelievable
Instead of just invisible Like shadows in the faded light, oh, we're invisible
I just wanna open your eyes and make you realize And I just want to show you, she don't even know you
Baby, let me love you, let me want you
You just see right through me but if you only knew me
We could be a beautiful, miracle, unbelievable
Instead of just invisible, oh, yeah She can't see the way your eyes will light up when you smile
