Older Guys

The Flying Burrito Brothers

I don't ever think about tomorrow
Whether or why is all on another day
And I think it's been said by somebody up ahead
The older guys tell me what it's all about
The older guys really got it all worked out
Since we got the older guys to show us how
I don't see why we can't stop right now

It's so cold staying living down on the ocean
Dead on the beach is where I want to rent my home
And I think it's been said by somebody up ahead
The older guys get the ladies with their style
The older guys squeeze 'em until it makes them smile
What's the sense of looking like a cop on the beat
What's the sense of looking like a girl on the street
